

TREES IN WETLAND AREAS

Compiled by Johan Louw

Nature conservation, Mbombela Local Municipality

2009

TREE SPECIES THAT ARE NATURALLY GROWING IN BERGVLAM STREAM

Acacia sieberiana (woodland area)

Ficus sycomorus (riparian zone)

Ficus sur (riparian zone)

Heteropyxis natalensis (woodland area)

Ziziphus mucronata (riparian zone and woodland)

Trichelia emetica (riparian zone)

Erythrina lysistemon (woodland area)

Celtis africana (riparian zone and woodland)

Sclerocarya birrea (woodland area)

Terminalia sericea (woodland area)

Rhus leptodictya (woodland area)

Dombeya rotundifolia(woodland area)

Syzygium cordatum (riparian zone)

Antidesma venosum (woodland area)

Pterocarpus angolensis (woodland area)

Acacia karroo (woodland area)

Ficus stuhlmannii (woodland area)

Trema orientalis (riparian zone and woodland)

Berchemia zeyheri (riparian zone and woodland)

Acacia ataxacantha (woodland and riparian)

Peltophorum africanum (woodland area)

Hippobromus pauciflorus (riparian zone and woodland)

Phyllanthus reticulates (riparian zone)

Annona senegalensis (riparian zone and woodland)

Cassia petersiana (riparian zone)

**TREES SPECIES THAT GROW IN THE NELSPRUIT AREA THAT
CAN BE PLANTED IN THE RIPARIAN ZONE**

Breonadia salicina

Rauvolfia caffra

Bridelia micrantha

Rothea myricoides

Combretum erythrophyllum

**TREE SPECIES THAT WILL BE SUITABLE TO GROW IN THE
RIPARIAN ZONE THAT DOES NOT GROW IN THIS AREA
NATURALLY**

Acacia xanthophloa

Cordyla africana (grows in Komatipoort area)

Albizia versicolor (woodland area)

Schotia brachypetala

Harpephyllum caffrum

Philenoptera violacea (woodland area)

Croton megalobotrys

Rhus montana

Rhamnus prinoides

Ziziphus rivularis

Syzygium guineense

Maesa lanceolata

Olea africana

Nuxia oppositifolia
