COMMENT(S) ON THE DRAFT SCOPING REPORT: Please make reference to the Chapter your comment(s) has reference to. You are welcome to use a separate sheet if required

.....

There is no chapter or page from which to reference in as far as the comments regarding the National Forests Act 84,1998 is concerned.

.....

The land area in question regarding the proposed development does not affect the national forests act hence the vegetation type in this area is dominantly grassland and planted forests which many of them are individual and privately owned. In the case of Komatiland Forests areas, consent must be received from the company before any activities affecting section 23 of the National forests act can be carried out.
