COMMENT(S) ON THE DRAFT SCOPING REPORT: Please make reference to the Chapter your comment(s) has reference to. You are welcome to use a separate sheet if required

Comments on Biodiversity is a major concern in settlement of people. The species found in the identified location, should it be animal or plant species are not endemic to Dirkiesdorp. These species are all over S.A and Mpumalanga as a whole. The area has reached its carrying capacity and can no longer sustain any further increase in population. We have a right not to be overcrowded, if the identified area cannot help its people, please refer us to another area where people will enjoy a better life as we are all equal.
